

Dear Colleagues,

we cordially invite you to the 9th Hamburg Advanced Course Robotic Prostatectomy to be held at the Martini-Klinik Prostate Cancer Center on August, 20 and 21, 2019.

During this course, we will demonstrate the state-of-the-art technology of the da Vinci robot-assisted radical prostatectomy. Following the tradition of inviting only absolute experts in the field of robotic prostate surgery, we are proud to have Christopher P Evans (Sacramento, California) and Frank Schiefelbein (Würzburg, Germany) as invited surgeons, who will share their extensive experience with you.

We will demonstrate the NeuroSAFE intraoperative frozen section analysis, the full functional length preparation of the urethra and the subtle but important details of the periprostatic anatomy responsible for superior functional outcome. Dr Schiefelbein will demonstrate „catheter-free“ Prostatectomy - the indwelling catheter will be removed at the end of the operation!

All this you will be able to observe „live“ in the theater while having direct interaction with the surgeons. We believe that these two internationally renowned experts together with our local team have created an interesting program that will be of help for both experienced users as well as beginners in order to provide an insightful view of the fascinating possibilities of robot-assisted radical prostatectomy.

We very much look forward to seeing you in Hamburg!

Prof. Dr. Alexander Haese
Course Director and
Head of Robotic Surgery

Prof. Dr. Markus Graefen
Chairman

Some Impressions

„Very good to be able to see four different surgeons approaching same operation.“

- K. Dettmann, DK

„Very nice and professional set up and wonderful releasing environment. Excellent team to work with. I would love to come back soon...“

- Dharmesh Patel, UK

Venues

Tuesday, 20/08/19: Dorint Hotel

Wednesday, 21/08/19: Martini-Klinik

Address Venue Dinner on August 20, 2019:

9th Martini-Klinik

Advanced Course Robotic Prostatectomy

Four surgeons, four approaches: For your eyes only

August 20 - 21, 2019

Tuesday, 20/08/19

5:30 pm @ Dorint Hotel

5:30 pm **Come Together**

6:00 pm **Key Note Speech**
(RARP)- Anastomosis Technique Without
Postoperative Urethral Catheter
F. Schiefelbein

8:00 pm **Dinner @ Dorint Hotel**

International Guest Surgeons

Frank Schiefelbein, MD
Chief Physician
Department of Urology,
Missioklinik Würzburg
Germany

Christopher Evans, MD
Professor and Chairman
Department of Urologic Surgery
University of California, Davis School of
Medicine
Sacramento, California, USA

Program-Highlights

- All surgeries live from the operating room of the Martini-Klinik
- State-of-the-art oral presentation and illustration of the key steps of robotic radical prostatectomy
- Trouble shooting and treatment of complex and advanced cases

For surgeons who plan the installation of a robotic program we will provide exhaustive tips and tricks, such as patient positioning, robot set up, docking and undocking, port placement as well as anaesthetic considerations and aspects from the nursing staff. The oral presentation of all surgeons and interactive discussions will add to the impressions obtained in the operating theatres. Moreover, we offer the possibility of a one day proctoring in your clinic. Four places are available and will be given away in the order of request.

Wednesday, 21/08/19

8:00 am to 10:45 am @ Operating Room I / II

8:00 am **Morning Live Surgery**
Radical prostatectomy: The Martini-Klinik-Technique
A. Haese
Robot-Assisted Laparoscopic Radical Prostatectomy
(RARP) - Anastomosis Technique Without
Postoperative Urethral Catheter
F. Schiefelbein

11:00 am to 11.45 am @ Conference Room

11:00 am **Lunch Break**
11:20 am **Guest Lecture**
The Rationale for Lymphadenectomy in
Prostate Cancer
Christopher Evans

12:00 am to 2:45 pm @ Operating Room I / II

12:00 am **Afternoon Live Surgery**
Robot-Assisted Laparoscopic Radical Prostatectomy:
Optimal Urethral Visualization and Retrograde
Nerve Sparing Approach
Christopher Evans
NeuroSAFE frozen section analysis to guarantee
microscopic tumor free resection margins in case of
suspicion for extra-capsular tumor extension
M. Graefen

3:00 pm to 4:30 pm @ Conference Room

3:00 pm **Coffee Break**
3:20 pm **Joint Summary of the Event**

All surgeons are available for their personal
resume of the demonstrated surgeries as well
as for questions and tips
